

Making Mobiles from Natural Found Objects

From the Adventure Playground....

Try and find things that look pretty, this could include sticks or branches, leaves, Ivy, feathers, berries on a branch.

Then bring them back to the table and use anything you like to decorate them. Use the scraps of fabric, netting, string, wool, you could even draw pictures of your favourite things, cut them out and hang them from your branch!

We will be using wire and wire cutters so it's important to use these **SAFELY**. Use them carefully and only use them to cut the wire you need and mould it around your objects.
